DATA SCIENTIST

PROFESSIONAL SUMMARY

Dedicated and proficient Data Scientist with a robust foundation in Python programming, complemented by a reasonable understanding of ML. My expertise extends across the data science lifecycle, encompassing data manipulation, analysis, and visualization. Beyond technical acumen, I excels in translating complex concepts for non-technical stakeholders. I am committed to continuous learning, staying abreast of the latest advancements, and am eager to contribute my skills to a dynamic team, driving data-driven decision-making and achieving business objectives.

TECHNICAL SKILLS

Programming Languages

- Python
- MySQL
- Java | C++   (Basic)

Package Distributor & IDE

- Anaconda Navigator
- Jupyter Notebook | PyCharm

Data Science Libraries & Frameworks

- NumPy
- Tensorflow
- Pandas
- Matplotlib
- SciKit Learn
- Seaborn
- Streamlit

**Also worked upon PyTorch and OpenCV (Basic)

Other Skills

- Mathematics | Statistics (Basic)
- Communication
- GitHub | Git (Basic)

EDUCATION

2022 - 2026 | Parul University
Bachelor of Technology - Infromation Technology

2020 - 2022 | Kendriya Vidyalaya
Senior Secondary Education - Science

PROJECT

CROP RECOMMENDATION MODEL

- Developed a recommendation model using Kaggle Crop Recommendation Dataset
- Deployed the final result on Streamlit cloud using Streamlit

AWADRDS AND ACHIEVEMENTS

- Vadodara Hackathon 4.0 2023 Winner
